

How to Make My Snowman

Student: Lauren 8B

1. Make a yellow background
2. Make a green ground that goes across the whole page that is 4cm going up and down and put the ground on the bottom of the page.
3. Make a white snow ball that has a diameter of 4cm and put that ball on the bottom of your snowman, but put the bottom of the snowball on the top of the grass.
4. Then, make another white snowball that has a diameter of $3\frac{1}{2}$ cm. Put that snowball on top of the other snowball.
5. Make another white snowball that has the diameter of $2\frac{1}{2}$ cm and put that snowball on top of the last snowball that you made.
6. Next make two square eyes that have the diameter of $\frac{1}{2}$ cm and put them about $\frac{1}{2}$ cm from each other and place the eyes on the head of the snowman. Put the eyes $\frac{1}{2}$ cm from the top of the top snowball.
7. Go to shapes and click the hexagon and make five little hexagons that are about the size of the led on a sharpened pencil and then put them under the eyes. Put them in the shape of a smile.
8. Make a carrot nose that has a diameter of 1cm and is about $\frac{1}{2}$ cm and that looks like an isosceles triangle. Put the carrot nose in the middle of the face of the snowman.
9. Make four little circles that have the same size as the tip of a shoe lace. Put the circles all in a row up and down on the middle snowball.
10. Make a scarf that is in the middle of the middle and top snowball. Go to the bucket and type in #ff3399 and draw the scarf around the neck let go of the mouse and then go down 2cm and stop.
11. Go to the bucket again and type in the #333300. Make the line size 6. Make an arm that comes out of the middle snowball and go down 2cm. Do this two times. Then make two little sticks that come

out of the big stick that is 1cm and put them 1cm above the big stick at the bottom.

12. Now, go to shapes and click the star that has eight spokes sticking out and then go straight up it should look like a snowflake with eight points that look like an asterisk. Then make twenty-seven little snowflakes that have the diameter of 1cm. Make the snowflakes black. Put 13 of the little snowflakes on the left of the snowman but not on the green ground or the snowman, then do the same thing but put the other 13 snowflakes on the right side of the snowman but don't put it on the snowman or the green ground.
